

To whom it may concern, Hi I purchased an xm radio in January just so I can listen to the music I grew up listening and that`s Tejano music . I had it for a week and you all took it off the air. Man I paid more than three hundred dollars just so I can listen to the music I really like and I feel robbed. I`m still a subscriber to xm just to listen to the groove out of all the channels you have yhat is all I listen to. I found a station on the internet on [www.bnetradio.com](http://www.bnetradio.com) They play 24 hours a day live they are out of Houston Texas these D.J`s do not get paid they volenteer and they are so awesome maybe you should hook up with them and have Tejano back on the xm they play commercials but who cares its a lot better than all the other channels you all offer. please give them a chance. For the monthly payment I pay you all, i`d rather just have this one station even with the commercial then to have any of your other stations any day.
